

**GT111M**

POWDER-FREE SINGLE USE NITRILE GLOVE WITH INNER POLYMERIZATION 30 CM LONG

**DESCRIPTION**

- > Inner polymerization for easy donning and doffing, even after long usage. Polymerization is a less aggressive technological process for the glove and more eco-friendly than chlorination.
- > Fully micro-textured hand surface for good grip in damp/oily environment;
- > Suitable for food contact
- > Class 1 medical device according to European Directive 93/42 and EN455 standard
- > Powder-free
- > Latex-free

**APPLICATION**

- > Precision handling of lightly abrasive pieces in extremely wet/oily environments or to protect against chemical splashes risks
- > Processing of fatty or wet foodstuff

<b>CAT</b>	CAT.III
